OUR NEIGHBORHOOD PLAN

Our planned 58 single-family home community is designed to integrate into and enhance the existing neighborhood. We appreciate the surrounding homes and points of interest in Midtown Sacramento. Our goal in building Tapestri Square is to celebrate the special character of the neighborhood and enhance it for the benefit of all.

Our vision is to have a community where neighbors know each other—and watch out for each other. A connected community makes for a stronger community. And a stronger community adds value to each individual home.

In the middle of the community plan will be a park-like “commons” area—Vizcaya Walk. With defined hardscape areas, accented by luscious landscaping—Vizcaya Walk will become the centerpiece of our community.
